Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-14 are rejected under 35 U.S.C. 102(b) as being anticipated by Okazaki (JP 08104219A).

Okazaki discloses calculating the master cylinder pressure by first calculating the vehicle body deceleration (vehicle model which is equivalent to the claim limitation “second wheel cylinder brake liquid pressure estimating section”), and then corrects by calculating the pressure change from the increasing time and the decreasing time (hydraulic model which is equivalent to the claim limitation “first wheel cylinder brake liquid pressure estimating section”).
